Jiaona Zou

Birth: on 11.01.1989 in Fujian, China
Mobil: +49 15908156859
Email: jiaona.zou@fmf.uni-freiburg.de
Address: Schönbergstr.1, 79115 Freiburg, Germany

Education

2017–2022	**Ph.D. in Freiburg Materials Research Centre, Albert-Ludwigs-University Freiburg** **Supervisor: Prof. Dr. Michael Fiederle (Magna cum Laude)** Dissertation: Crystal Growth and Characterization of (Cd,Zn)Te by the Traveling Heater Method for the Application of Radiation Detection
2014–2016	**M. Sc. in Crystallography Institute, Albert-Ludwigs-University Freiburg (1.4)** Master Thesis: Electrical Characterization of Semiconductor Materials
2008–2012	**B. Sc. in Material science and engineering, Xiamen University, China (2.2)**

Work Experience

2017–pres **Ph.D. /Research Assistant, Freiburg Materials Research Centre, Uni Freiburg**

- Crystal growth by the THM and Bridgman techniques
- Semiconductor materials characterization: electrical measurement (cryogenic, I-V, Van der Pauw and Hall measurement), XRD, SEM, EDX, AFM, XPS, Laue camera, X-ray topography, birefringence, LIBS, optical microscopy, chemical etching
- Crystal defects analysis: dislocations, twins, grain boundaries, inclusions, precipitates, stress & strain
- Project management in scientific projects: Implementation of project procedures; communication with project partners; reporting and presentation of results
- Data analysis with MATLAB and Origin
- Preparation and publication of scientific papers
- Teaching experience in practical courses for MA students: optical and electrical measurements of semiconductors; material characterization with SEM and Laue
- Supervision of master thesis as well as guidance of scientific assistants

2012–2014 **Marketing Assistant, Anhui Sanan Technology Co., LTD., Xiamen, China**

- support LED product development activities
- Coordinate with sales, application engineers, R&D and industry to manage the execution of tasks across teams

2011–2012 **Undergraduate Research Assistant, Xiamen University, China**

- SEM characterization of continuous silicon carbide fiber reinforced silicon nitride ceramic matrix composites

Jiaona Zou | Schönbergstr.1 | 79115 Freiburg im Breisgau | +49 15908156859 | jiaona.zou@fmf.uni-freiburg.de

Awards and Honors

2012	The First Prize in the Material Design Competition at Xiamen University
2009	The Second Scholarship at Xiamen University
2008	The 'Zhuangcaifang' Scholarship in Fujian Provence (Top 0.1%)

Social Engagement

2012	Voluntary teacher in Wen'an Primary School, Xiamen, China
2010	Volunteer in cultural research of ethnic minority and voluntary teaching team, Que'erzhai Primary School, Fenghuang County, Hunan, China

Other Skills

Language	Chinese (native), English (proficient), German (advanced)
Computer	MATLAB, Origin, AutoCAD, Adobe Illustrator, MS Office

Scientific Publications

2021 **Zou, J.**; Fauler, A.; Senchenkov, A.S.; Kolesnikov, N.N.; Fiederle, M. *Analysis of Te Inclusion Striations in (Cd,Zn)Te Crystals Grown by Traveling Heater Method*. Crystals 2021, 11, 649, doi:10.3390/cryst11060649.

2021 **Zou, J.**; Fauler, A.; Senchenkov, A.S.; Kolesnikov, N.N.; Kirste, L.; Kabukcuoglu, M.P.; Hamann, E.; Cecilia, A.; Fiederle, M. *Characterization of Structural Defects in (Cd,Zn)Te Crystals Grown by the Traveling Heater Method*. Crystals 2021, 11, 1402. https://doi.org/10.3390/cryst11111402.

2022 **Zou, J.**; Fauler, A.; Fiederle, M. *Chapter 3 - Investigation of Structural Defects in (Cd,Zn)Te Crystals Grown by Traveling Heater Method.* In Abbene, L.; Iniewski K., editors. High-Z Materials for X-ray Detection: Material Properties and Characterization Techniques, Springer Nature. **In press.**
